## What are others saying?

In October, 2005 we had to buy a new washer. The old one was 18 years old. The appliance installer asked how we got our appliances to last 18 years. We told him that we had Boyett's soft water installed when we built the home and the soft water obviously had served us well.

- Tom E., Mesa valued customer since 1987

I have enjoyed Boyett Family Rayne Water Conditioning Soft Water and Reverse Osmosis service for over 30 years. We install Rayne products on every home we build. All of our customers have been very satisfied with Boyett Family Rayne Water Conditioning Soft Water and Reverse Osmosis systems. They have very skilled technicians who take pride in their work. Their prices are very fair. They have had the same phone number for over 45 years. They give service after the sale.

-Pat Nash, President of Naspek Home Builders Customer since 1965

My first experience with your company has been great. I found you in the yellow pages. My skin was very dry with white flakes. After a week of using soft water the flakes disappeared. I do not have to use lotion any longer. The gentleman that you sent out - my husband really liked him. He was efficient and very informative.

-Joyce

I was laid off of my part time job. You were so nice to give me a reprieve for a couple of months. You gave me a lower rate on my rental soft water portable exchange tank delivery service. I am very grateful for your generosity. Here are some benefits I have noticed by utilizing your service: Mirrors and shower doors and faucets stay shiny, no corrosion or mineral build up, saves pipes in the house and gives me more enjoyable quality water for bathing and shampooing. body does not feel as dry and you don't feel like you are getting hit with rocks in the shower. Timely, efficient and courteous!

-Ottie C.

## About the Boyett Family

Boyett Family Rayne Water Conditioning has been serving Arizona (both residential and commercial) for over 46 years with the finest reverse osmosis water softener systems in the valley and surrounding areas. With over 100,000 clients total and adding 300 new clients each year, the Boyett family continues to have an A+ rating with the Better Business Bureau and takes pride in catering to and valuing the personal needs of each client. We manufacture all of our own equipment in our Mesa, AZ location and pay careful attention to utilize as many American raw materials as possible. Not only are we family owned, but female operated by our mother, which is very unique and special to us. With teams who have worked for and with our company for over 24 years, we are confident that you will receive the quality service and convenience the Boyett Family Rayne Water Conditioning has been known for all 46 years!
